2° European Energy Conference

18 June 2013 at 2:00 pm

2nd European Energy Conference

Consumers

**From the free market to the
energy efficiency**

European Commission

Centre Albert Borschette

Brussels

The Sustainable Consumption Foundation has the pleasure to invited you to the 2° European Energy Conference on: **Consumers from the free market to the energy efficiency.**

The conference will be in Brussels in the **European Commission in the Albert Borschette Conference Centre, rue Froissart 36, B- 1040**. The Conference is organized in cooperation and with the support of DG Sanco and DG Energy in the context of Sustainable Energy Week.

The focus of the Conference:

- how to promote consumers awareness on market competition and energy efficiency:

- in an energy single market what are the measures that concern consumers and what can be the expected benefits.
- how to improve energy efficiency and technological innovation in housing and how to support financial cost;
- how to increase market competition, transparency and prevent unfair commercial practices;
- how to improve consumers dialogue between consumers association, industries and regulators.

Our main objectives is to strenght cooperation among stakeholders for a fair competitive single market.

We would be grateful if you could register as soon as possible at the follow e mail: eventi@consumosostenibile.eu.
